**NEW JAVELIN PRO
Pneumatic Press**

*The Javelin Series' 25 Years of Reliable
Performance...just got smarter.*

New Features:

- Touch Screen for Logical interface with the operator
- Improved Double index speeds: moves twice without lifting in-between.
- Rapid Multiple Print Strokes With Table up!
- Increased Number of Strokes: Need 9 Strokes? You've got'em!
- Compact Control all timers moved inside the touch screen.
- Full Diagnostics and testing from touch screen control.
- On the fly timer and stroke changes.
- Improved Sample Mode
- Real Time Production and Count Data.

The Javelin has long been the industries Tuf Guy: heavy and solid, built to last, fast and easy to use but some would say not the smartest machine around. While this was true it's part of what made the Javelin so reliable for so long. Less sophistication equaled more reliability. At Tuf we waited until the technology advanced enough to allow us to provide a machine that was just as Tuf and Reliable but now a lot smarter **The Javelin Pro!**
